

DELUXE AUTO DRUM UPDATE KIT

The deluxe swivel adapter improves handling and adjustment of the Auto Drum, and raises powder measure to clear the tallest dies. We've also provided the highly requested hopper with removable cover.

- ① Remove drop tube, rotate and pull out old drop tube with pliers. Discard drop tube.

- ② Remove o-ring, actuator lock, and swivel adapter.

Discard old parts

Save o-ring for step 3

- ③ Slide deluxe swivel adapter into Auto Drum housing.

Slide o-ring on to threaded portion of swivel adapter

- ④ Insert new 2.75" long drop tube into swivel adapter, and align with drop tube in housing.

- ⑤ Once aligned, firmly push against solid surface to set the drop tube.

- ⑥ Final assembled product.
